pattern

patternplatform.app

BY THE NUMBERS

Welcome to Pattern

Pattern is an easy-to-use app that allows groups of both readers and listeners to discover and study the Bible together.

Since our start in 2021...

27 Apps Launched or in Progress

17 Countries

20 Languages

INTRODUCTION

▶ Vast regions of the earth are filled with spiritually lost people. A third of the world has been denied access to the gospel.

▶ Hostile governments make sharing the gospel with unreached people groups expensive and dangerous.

▶ **Pattern's mission is to leverage technology to accelerate gospel proclamation and disciple-making.**

▶ Pattern partners with missionaries to build custom discipleship apps that serve to multiply their disciple-making efforts – with security features that allow exponential, free distribution under the radar of hostile governments.

Any language. Any device. Every pocket.

"I finally feel safe having a Christian app on my phone."
- Believer in a hostile country

"Our family gathered today and the app was so easy to use and understand!"
- New believer in a hostile country

*"With this app I knew I could guide our home church just like the missionary!"*
- Local believer

WHAT'S NEXT?

We have the audacious goal of launching...

150 Apps

in 50 countries

by 2025

We need financial partners to help us seize the moment and **scale globally**, as we utilize innovative technology to empower a grassroots movement of discipleship.

Partnering with visionary donors, we want to release Pattern Apps as a gift to the world.

WHAT WE BUILT

Pattern Platform is a digital discipleship resource engineered for global scaling. We build apps customized to the language and context of unique people groups.

These apps can be securely shared phone-to-phone, in essence becoming an **unlimited digital printing press** of discipleship resources for anyone, anywhere.
